RE: Approval, Administrative Closure of RCRA Unit 777.1, Building 776/777

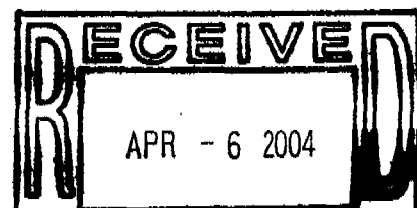

Dear Mr. Legare and Mr. Nesta:

The Colorado Department of Public Health and Environment, Hazardous Materials and Waste Management Division (the "Division") has received your request for the closure of the subject RCRA unit dated March 22, 2004.

Division staff met with DOE and contractor personnel on April 1, 2004 and reviewed both the specific portions of the WEEMS database and inspection records covering the period during which RCRA wastes were stored in the unit. December 28, 2001 is acknowledged as the unit's "RCRA stable" date allowing routine inspections to be terminated.

Information exchanged at the meeting was helpful in clarifying, relative to the March 22 request, that only RCRA waste solids were stored in the unit. Consequently liquids, or wastes containing free liquids, were never stored in the unit.

The absence of contamination has been satisfactorily demonstrated in accordance with Section 4.5.1.1 of the Building 776/777 Decommissioning Operations Plan (DOP). Accordingly, the unit is determined to be clean and closed for RCRA storage purposes, per Section 4.5.2 of the DOP, and the site may be used for purposes other than future RCRA storage.
